

CORK CAT CLUB

8TH SEPTEMBER 2024

MRS SANDRA MOORE

A very warm Southern Irish welcome greeted us making our stay a most happy one. My thanks to the Show Manager Colm Noonan for the invitation to judge and my gratitude to the very hard working committee, for the hospitality afforded me a special mention to Rowena and Brandon Murphy, who made sure we were in the right place at the right time. It was great to see all the exhibitors, coming from far and wide to show off some lovely cats. Last but by no means least to my steward for the day, Aoife (pronounced Eefa) who was everything I could ask for in a perfect companion, she handled all the cats, and me! with care and kindness, many thanks Aoife you helped to make my day purrfect.

HIBERNIAN GRAND PREMIER (INVICTUS CLASS) MALE class 3

INVICTUS AWARD TO – WAGNERS SUP IS HIBGRPR&INT PR SILVERFERN

FRENCH KISS (MCO n 03 22) MN (22.03.2018) What a way to start my day with this magnificent six and a half year old Brown Tabby with White Maine Coon boy of enormous proportions his huge legs and very large furry paws do a great job of holding up this impressive individual. Having a bold strong head with width just slightly less than length, large well opened ears sit proudly high and well tufted at the very tips, eyes have an oblique setting, medium length nose of uniform width, the muzzle on this boy is strong and square with lovely long whiskers and firm chin. Rectangular body he carries much weight and is well muscled, long tail balances with the body. The coat falls in layers over his body and shows a rich classic pattern on a warm brown base with snowy white to his full bib chest tummy and feet, shown in immaculate condition.

SECTION 2 HIBERNIAN GRAND CHAMPION MALE class 119M

HIBERNIAN GRAND CHAMPION TO – STEINER-BROWNES GRCH FRIENDLY

GHOSTS BIG BEAR (MCO n 22) M (19.05.2022) A handsome Brown Tabby Maine Coon male of just over two years. Having a shapely head which support his large well tufted and feathered upright ears, hazel eyes in a good setting, his profile shows a shallow concave curve at the nasal bridge, high set cheek bones muzzle is firm and square, with a level bite. Lengthy body, of good weight and condition with substantial legs and paws. Well prepared coat of good length and texture for the time of year, excellent well defined markings to his face with good pattern along his body and down the long tail all showing a healthy shine, in nice condition and handled well.

RES. SWIACKAS GRCH & INT CH GATTACAMOON VOL TURION (MCO ds 11)

Red Silver Shaded male of almost two and a half years, nicely grown with a big strong frame of very good bone, his long body does look a little lean along his back but he has plenty of weight and looks to be in nice condition. Masculine head of medium length his ears are tall and wide at base tapering to the lynx like tufting at the very tips, expressive amber eyes in a good setting, fairly squared off muzzle well formed cheek bones and good chin, bite is level with some incisors missing. Good length to his body with a well matched tail. Coat a little close lying but of good length the light silvery base shows good definition of the red shading over his flanks and along the tail, gentle boy.

SECTION 2 HIBERNIAN GRAND CHAMPION FEMALE class 119F

HIBERNAIN GRAND CHAMPION TO – WAGNERS GRCH & INT CH UNICUM TESLA (MCO g 03 22) F (03.12.2020) Blue Tortie Tabby with White, pretty and feminine female of very nice type and shown in tip top condition. Super large upright ears showing lots of long furnishings, medium length head nose of uniform width with a gentle curve at the nasal bridge when viewed in profile, very nice eye shape light green in colour, level bite muzzle is nicely square coupled to a deep chin. Rectangular and very shapely body of good bone and weight, firm legs with tufting to her paws, and a long flowing tail. Very attractive coat showing rich colours with sparkling white, a small white patch on lower face a white bib chest tummy and paws, delightful girl.

SECTION 2 HIBERNIAN GRAND PREMIER class 165

HIBERNIAN GRAND PREMIER TO – PAVLOVICS GRPR PANDORASPAWS

ALADDIN (MCO n 03 22) MN (14.05.2021) Brown Classic Tabby with White, What a hunk this Maine Coon boy is, large and substantial of very good bone and a real heavyweight and so laid back and easy going. Head just slightly longer than wide, high set cheek bones, his ears are large and well shaped and are widely spaced, in profile his nose is just the right length with a gentle curve at the bridge, eyes are a good shape and in a pleasing setting, his muzzle is firm and square with good depth to his chin. Sturdy rectangular body he has attained breadth to his chest and width to his beam, he stands on strong legs with large rounded paws, his long flowing tail is well ringed. Weatherproof coat of very nice texture, a small flash of white to his lower face with white to his bib and tummy, well shown.

GRAND 2C CHAMPION MALE class 138M

Award w/h PAVLOVICS CH KARAKUM MICKEY (MCO ns 22) M (01.07.2021) A very solid boy of gigantic proportions, nice natured and shown in good

condition. Long well proportioned body of much substance and muscle broad deep chest with very large limbs and paws, tail is well matched for length. The coat is nicely groomed of good length and shows a fairly good pattern. But sadly he does not conform to the Maine Coon Standard for head type, ears are too wide set and flop to the sides, heavy browed so eyes look deep set, rather short and rounded in the face. So sorry I could not award the certificate, he is a real gentle giant with a super temperament.

GRAND 2C CHAMPION FEMALE class 138F

GRAND TO – WAGNERS CH LAGUNALEO ZACHARA (MCO fs 22) F (10.12.2020)

Tortie Silver Classic Tabby elegant girl of three years nine months very mature looking with a lovely facial expression. Well balanced head she has the type I like very much with large ears appearing pointed at the very tips, full cheeks complimented by her high cheek bones, her nose has a shallow curve at the nasal bridge giving a good profile, bright wide awake eyes full of expression, square muzzle with good depth to her chin. Rectangular body solid and quite muscular she has a firm weighty feel to her with a long and flowing tail slightly tapered towards the tip, well boned legs with proportionate rounded paws. Coat beautifully patched on a light silver base with good pattern to the face, well presented.

RES. SWIACKAS CH BLACKJAGUAR GEISHA (MCO f) F (23.11.2022) Tortie girl not quite two years old and a lot to like about her, again she too has a dear facial expression, just under two years of age, medium size ears set quite wide showing good flare and open at base, eyes on the small side a lovely hazel colour, her head is maturing nicely with width at the cheek bones, and length to the profile with her nose of uniform width, muzzle is square with a good chin and bite. Long and shapely body, she has a nice elegance about her with a long and full tail with legs and feet in proportion. Excellent grooming to her coat which is glossy and very striking showing black and red patches with some ruff around the head and breeches to the rear, handled well.

AC TABBY/SMOKE/CAMEO & WHITE PERSIAN KITTEN class 64

1ST & BOB TO – PEARSONS KITTIQ MAXMARA (PER g 03 22) F (25.01.2024)

Blue Cream Tabby with White Bi-Colour pretty kitty with a wealth of well groomed coat she did look so appealing, seven and a half months she is well grown of cobby build with short thick legs and neatly rounded paws, a very full brush for her tail. Broad round head with fullness to her cheeks, her ears are neat and fit into the contours giving her face an ideal rounded look, short broad nose with a dear pink leather, bold and round eyes just a little weepy on the day very nice copper colour, strong full muzzle and deep chin. Super quality

coat it felt just like cotton wool and stands out from the body and looked full of life with a ruff, a high white with a blue tail and blue to the top half of the face, a hint of cream appearing here and there with some tabby on her mask, a real poppet.

AC BI-COLOUR OR MITTED RAGDOLL ADULT MALE class 127M

CC TO – LOCKYERS SKYEISLA GEORGE (RAG a 03) M (23.05.2022) Blue Bi-Colour male well grown and having a gentle nature, but let down by the lack of grooming and presentation, and a dingy show blanket, very good example of the breed so I have awarded the certificate but I have to say he deserves better!! Masculine head and strong solid body with well boned legs and his tail matches for length. Good type with a true flat plane between well shaped forward facing ears, expressive eyes of a pleasing blue, his profile shows a gentle dip and retrousse tip. His coat could have looked so much better with a little effort, but the pattern for the breed is good with an even white blaze to his face, with white legs up to the level of the body, nice temperament.

AC BI-COLOUR OR MITTED RAGDOLL ADULT FEMALE class 127F

CC & BOB TO – CHRAPALAS REGBEN LAND HELEN (RAG n 03) F (07.04.2021) Very appealing Seal Bi-Colour female of almost three and a half years I was impressed with her overall structure and facial expression, confident with a pleasant personality. Very nice head shape with medium ears set quite wide between a flat plane, lovely deep blue eyes, her medium length nose has a gentle slope to the profile and width at the muzzle with a firm chin. Body of good length and of good weight tail balancing and is well furnished. Nice seal colour to face and ears with a seal tail, an even white inverted 'V' to mask with white to underbody and legs a white strip across the lower back just completes the pattern, well presented and very well shown.

MAINE COON BROWN/BLUE TABBY/TABBY & WHITE ADULT MALE class 139M

For bob only

BOB TO – STEINER-BROWNES GRCH FRIENDLYGHOSTS BIG BEAR see above.

MAINE COON BROWN/BLUE TABBY/TABBY & WHITE ADULT FEMALE class 139F

CC TO – PAVLOVICS HUNTERS ENIGMA PANDORA (MCO n 03 22) F

(01.05.2020) Brown Classic Tabby with White this well presented female is coming up to four and a half years of age she has true type and was a pleasure to handle and judge as her manners leave nothing wanting. Well matured and in good seasonal coat, her head and body are in harmony with nothing looking

out of place, she is an extremely striking girl showing a good tabby pattern throughout her coat. Nice ears set high with good space between, bright shapely eyes with a slight oblique aperture and set, medium length head with high set cheek bones, her profile shows a gentle curve at the nasal bridge, chin firm with a square muzzle. Long well patterned top coat with sparkling white.

MAINE COON SILVER TABBY SERIES ADULT MALE class 140M

For bob only

PAVLOVICS CH KARAKUM MICKEY see above.

MAINE COON SILVER TABBY SERIES ADULT FEMALE class 140F

CC & BOB TO – PAVLOVICS PANDORASPAWS BEBA (MCO ns 03 22) F

(22.02.2022) Black Silver Tabby with White a really good looking girl of just over two and a half years growing into that long body of hers. Super head shape of good length with high and wide cheek bones giving the desired facial balance, ears are large and pointed at the very tips in profile the nose is just the right length, expressive eyes in an oblique setting, muzzle is firm and square. Sturdy rectangular body of good bone and weight she stands on strong legs with large tufted paws and a long and flowing ringed tail. Her coat has a strong silver base so the tabby pattern stands out especially on her face, with white patches, lovely girl.

For bob only

WAGNERS CH LAGUNALEO ZACHARA see above.

MAINE COON RED TABBY SERIES ADULT class 141

For bob only

BOB TO – WAGNERS GRCH &INT CH UNICUM TESLA see above.

AOC MAINE COON ADULT MALE class 142M

CC TO – WAGNERS FRIENDLYGHOST FALKOR (MCO a) M (23.05.2023) Blue boy of just over fifteen months a supersized male who has very good substance to a large and imposing body which is long and impressive coupled to firm and sturdy legs ending in large rounded furry paws. His head is large and imposing with a thick neck, wide based ears that could be a tad larger with lynx like tufts at the very tips, eyes are round a little on the small side a very nice colour, nose of uniform width with a well shaped blue leather, a heavy muzzle that is extremely square and strong chin. Heavy muscular body, with a broad chest, long tail that is wide at base tapering to the tip. Coat is a soft blue colour with a ruff and knickbockers, well groomed.

For bob only

SWIACKAS GRCH &INT CH GATTACAMOON VOLTURION (MCO ds 11) M
(24.04.2022) see above.

WAGNERS TARA HIBGRCH ISHCUS FRANKLIN D (MCO as) M (02.05.2017) Blue
Smoke male of over seven years, he does look very mature as his age would
suggest, a big and imposing individual with a substantial head and a body
which is well muscled with a deep chest rectangular in shape and excellent
boning to his limbs and very large feet. His coat is of a good length for the
season, the smoke effect is evident with a pale ruff and bib, his long tail which
is quite full almost reaches his shoulder, charming gentle cat.

AOC MAIN COON ADULT FEMALE class 142F

CC TO – PAVLOVICS PANDORASPAWS DHARMA (MCO ns) F (10.08.2023) Black
Smoke lass who was quite nervy so she did not show herself off to best
advantage, but to be fair she did let us handle her. Just over the year and
looking a tad adolescent long and rangy in the body and just a little high on the
legs, of good weight with a long and flowing tail. Ears set high on a reasonably
broad head, eyes a little deepset, nose in profile is a bit straight, muzzle is
square just needing that extra fullness for perfection. Good bodyweight and
muscle tone. Coat on this girl is very promising with a good smoke effect
coming through from root to the ends of the hair with a pale ruff and
breeches, well presented.

For bob only

BOB TO – SWIACKAS CH BLACKJAGUAR GEISHA see above.

MAINE COON SILVER TABBY SERIES KITTEN class 161

1ST & BOB TO – WAGNERS VERDI OF MASSLCATS (MCO ns 03 22) M
(07.04.2024) Black Silver Tabby with White What a lovely kitten I was very
impressed with him he is so confident and self assured stylish and very
promising. Wonderful head shape overall it is slightly longer than its breadth
large ears set high yet well apart with long furnishings and good length tufts at
the tips making them look even larger, large and expressive gold eyes in an
oblique setting, good profile and deep chin, his muzzle is well defined and
square. Very well developed for just five months with a nice feel to his
muscular body he is fast growing into those huge feet, very long and full tail.
Glossy coat the light silver base is overlaid with a striking black tabby pattern,
with clean and bright white patches and feet, super kitty.

AOC MAINE COON KITTEN class 163

1ST & BOB TO – WOLANSKA-KUGLINS FRIENDLYGHOST JOVIAN (MCO ns) MN
(14.02.2024) A well developed lad of good bodily proportions with a sweet

nature almost seven months and looks to be going through a growth spurt as he is a little leggy at the moment. Head shows a pleasing length to breadth ratio, ears sit tall and taper to the tufted tips, eyes are a very good shape and in a good setting two tone green, medium length nose which in profile does show a moderate concave curve to the nasal bridge, high set cheek bones, his muzzle is fairly square awaiting a little more fullness for perfection. Long body of very good weight with a well matched fully plumed tail. Coat is nicely presented the silvery undercoat is covered by a good mainly black topcoat with a smoke ruff with silvery furnishings to the ears, a poppet to handle and judge.

AC BI-COLOUR OR MITTED RAGDOLL NEUTER class 173

PC & BOB TO – JACKSONS IRESEPSL SNOW-STRIPE (RAG a 03 21) FN

(11.03.2019) How lovely to meet up with this girl again, I judged this blue tabby pointed as a kitten some five years ago I thought then she was bonny and now I see she has matured into a lovely girl showing us all that early promise. Quite obviously loved to bits and it shows through those sparkling blue eyes. A most pleasing example of the breed with a nice head shape and pleasing flat plane separating her medium round tipped ears, well developed cheeks and firm muzzle. Well balanced female she is a good weight with substance to her body. Very good length coat with a striking 'M' to mask and a fully ringed tail, an even white blaze to her face with white to the underbody and legs just one spot of colour on one back leg, lovely girl.

BRITISH LONGHAIR KITTEN class 260

1ST & BOB TO – SPIEWAK/KOLODZIEJCZAKS GOLDENROSE* DREAM (BLH ns 21 33) M (24.03.2024) Black Silver Tabby Colourpointed, cute little boy of five and a half months, at a glance he looked all white as the points are yet to fully come through, but out of the pen there is some feint colour and markings on his points with an 'M' on the forehead just visible. Not particularly big for his age and rather light in weight but not rangy his body is cobby with a short level back and low on the legs, tail matches for length and is quite thick at the base tapering slightly to a rounded tip. Head is nicely formed with a rounded forehead, his small and neat ears are spaced well apart with an abundance of internal furnishings, the eyes on this boy are very attractive large and round a deep blue giving a gentle expression, moderately short nose with a firm chin and level bite but he looked a little fine in the muzzle due in part to a teething pinch. Coat has been very well prepared with a ruff and bib, attractive kitty handled well.
